Experience

Senior Front End Developer · **Shift7 Digital** Apr 2023 – Nov 2023

Front End Developer Apr 2023 – Nov 2023

- Built and styled responsive websites, scalable design systems, and cross-platform experiences leveraging JavaScript, React, Salesforce Lightning Web Components, Tailwind CSS and other front-end technologies
- Developed and maintained a diverse array of client frontend architectures, ensuring scalability, performance, and long-term maintainability
- Collaborated with cross-functional teams, including product managers, designers, and engineers, to deliver optimized digital experiences within agile two-week sprint cycles
- Led front-end development for a full website redesign for a major client, rebuilding and enhancing all Sitecore components with modern, maintainable HTML, CSS, and JavaScript

Front End Developer · **iGrad** Oct 2020 – Sep 2021

- Built reusable, high-quality React components seamlessly integrated into the project's design system
- Implemented new features and enhanced functionality for iGrad's web applications, utilizing React, SASS, Material-UI, Bootstrap, Styled-Components, Telerik, and other modern tools
- Worked closely with design teams to translate Figma designs into responsive React components, ensuring alignment with technical specifications and project scope requirements

Systems Administrator · **Remark Holdings** Feb 2017 – Feb 2021

IT Help Desk Apr 2016 – Feb 2017

- Managed on-site servers, firewalls, switches, storage devices, access points, and cloud AWS infrastructure
- Planned, coordinated and installed all network, infrastructure and end-user equipment for new bases
- Managed Active Directory, including user accounts, group policies, OUs, and domain permissions for secure access control
- Administered Microsoft Exchange, handling email accounts, distribution groups, mailbox permissions, and spam filtering
- Monitored routine backups for user restoration and disaster recovery

Skills

Programming Languages

JavaScript, HTML, CSS, Sass

Libraries & Frameworks

React, Redux, Tailwind CSS, Salesforce Lightning Web Components, Gatsby, Styled Components

Tools & Platforms

Git, GitHub, GitLab, AWS (EC2, Route 53, S3, CloudFront), Netlify, Heroku, Docker, Figma, JIRA

Projects

Schlumberger Redesign

Rebuilt and developed Sitecore components using HTML, CSS, and JavaScript for a full site redesign, also adding new components and functionality to meet project goals.

FleetPride

Built new features for the website, resolved bugs, and contributed to integrating Coveo search to improve user experience

Global Industrial Knowledge Center

Developed the Communities, Ask an Industry Expert, and Event pages and added new features to existing Knowledge Center platforms
